## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/17/2002 has been entered.

### ***Response to Amendment***

2. The amendment filed on 06/17/2002 has been entered. This amendment amends claims 48, 57 and 69 and cancels claims 65, 70, 72 and 74. Claims 48-50, 52, 55-61, 63, 67-69, 71, 73 and 76-78 are pending.
3. This amendment newly defines the complementary screen as having "at least a two dimensional array of N pixels". This new limitation is claiming a two dimensional array of pixels, a three dimensional array of pixels, etc.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 48-50, 52, 55-61, 63, 67-69, 71, 73 and 76-78 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 48, 57 and 69 were amended to claim at least one complementary screen having "at least a two dimensional array of N pixels". The originally filed specification at page 9 lines 8-10 describes a complementary screen having a two dimensional array. This new limitation is claiming a two dimensional array of pixels which is supported by the originally filed specification, a three dimensional array of pixels which is not supported by the originally filed specification, etc. Due to the scope of applicants newly presented amendment, the originally filed specification does not support the newly presented limitation "at least a two dimensional array of N pixels".

***Drawings***

6. The drawings are objected to for the reasons given for figure 2 in the paragraph spanning pages 3 and 4 in the final rejection mailed on 01/15/2002 for the reasons given in the advisory action mailed on 04/26/2002. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

7. On page 10 of the 06/17/2002 response applicants states that a new figure 2 is being prepared by the draftsman. This new figure 2 has not been received and applicant should diligently submit this new figure to avoid abandonment of this application. 37 CFR states:

§ 1.85 Corrections to drawings.

(a) A utility or plant application will not be placed on the files for examination until objections to the drawings have been corrected. Except as provided in § 1.215(c), any patent application publication will not include drawings filed after the application has been placed on the files for examination. Unless applicant is otherwise notified in an Office action, objections to the drawings in a utility or plant application will not be held in abeyance, and a request to hold objections to the drawings in abeyance will not be considered a bona fide attempt to advance the application to final action (§ 1.135(c)).

***Response to Arguments***

8. Applicant's request to allow claims 48-50, 52, 55-61, 63, 67-69, 71, 73 and 76-78 has been considered but are moot in view of the new ground(s) of rejection.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffery A. Brier whose telephone number is (703) 305-4723. The examiner can normally be reached on M-F from 6:30 to 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Razavi, can be reached at (703) 305-4713).
